Mr. Donald J. Thimsen, P.E.  
Manager, Environmental Engr.  
General Mills, Inc.  
General Offices  
Post Office Box 1113  
Minneapolis, MN 55440

Dear Mr. Thimsen:

Hennepin County is also involved in the matter for the proper disposition of the situation of the Henkel Corp., site 2010 East Hennepin Avenue, Minneapolis. The County will be attending all future meetings concerning the above subject matter.

From all indications, it is apparent that the County will have to approve of the resolution of matter in accordance with our Hazardous Waste Ordinance. Therefore, to be properly informed and aware of what is transpiring, we are requesting that a copy of the boring location map, results of analysis of soil and groundwater samples of the solvent contaminated area prepared by Soil Exploration Co., be sent to us.

If you have any questions, contact me.

Sincerely,

Edward Monteleone  
Principal Environmentalist
